PUBLICATIONS , ACHIEVEMENTS, ROLES

👤 **Data Governance CoChair,**
USA for UNHCR, 2026-Present

👤 **Culture Captain,**
USA for UNHCR, 2025-Present

📄 **BCell ROCK1 Promotes**
Germinal Center Response and is
Required for Optimal Humoral
Immunity
American College of Rheumatology, 2019

📄 **Using Synthetic Biology to**
Interface with Physical Micro and
Nano Based Sensors
SPIE Digital Library, 2017

🏆 **iGEM Synthetic Biology**
Competition
Bronze Award, 2017

👤 **iGEM Program Mentor**
EphiphanyNYC, 2017

TECH STACK

Database Dialects:
pgSQL, BigQuery, RedShift, noSQL

Warehousing:
BigQuery, S3, GCS

Programming and Orchestration:
Python (dagster, meltano, nltk,
langchain, airflow), dbt (jinja),
Databricks, Terraform, Kafka

Cloud:
Google Cloud, AWS

PROFILE

Data/ Analytics Engineer with experience building ETL pipelines and analytics ready infrastructure with Bigquery, dbt and Dagster. I bring a molecular biologist's mindset— experimental design, structured problem solving and statistical thinking to production ready, governed data systems.

EXPERIENCE

USA FOR UNHCR

JUL 2024 - PRESENT

📌 **Associate Data Engineer**
Junior Data Engineer

- Co-launched USA for UNHCR's first data governance program, leading biweekly discovery, review governance conversations with other members across the development team.
- Created 5 self-service analytics dashboards in Looker Studio to support Mid-Level fundraising operations using dbt, eliminating recurring adhoc data requests.
- Designed and shipped Dagster/dbt automation pipelines to serve fundraising operations and external vendors— cutting ~2,500 manually data entry hours annually and contributing to a ~6% lift in Mid-Level donor revenue and giving volume.
- Designed and built internal RESTful APIs to standardize shared utilities codebase, reducing duplicated code over 20 pipelines and setting the foundation for new integrations.
- Built end to end attribution pipeline to associate online giving with direct mail campaigns— giving the offline marketing team its first quantified view of offline to online conversion and reshaping offline giving strategy.

CHENGU SWEETS

APR 2020 - NOV 2024

• **Owner & Restaurant Consultant**

- Founded a small business offering Asian-inspired pastries. Applied clustering analysis and dynamic cost modeling to guide menu, proving and concept decisions. Organized fundraising campaigns, contributing over \$10,000 to charitable causes

HOSPITAL FOR SPECIAL SURGERY

MAR 2019 - FEB 2020

• **Laboratory Technician**

- Maintained a compliant clinical-research database for ALS patient samples in coordination with clinical research staff.
- Built a reagent-management system with automated PO generation/ tracking that cut procurement overhead.

ICAHN SCHOOL OF MEDICINE AT MOUNT SINAI

FEB 2016 - DEC 2018

📌 **Associate Researcher**
Laboratory Assistant, Flex Staff
Summer Intern & Volunteer

- Led data mining initiatives on Alzheimer's Disease, utilizing data aggregation techniques in R to identify key targets that guided future research directions.

EDUCATION

Columbia University, NYC — Data Analytics Boot Camp, Aug 2023 – Feb 2024

Hunter College, NYC — Masters in Biotechnology, Aug 2016 – Jun 2018

Hunter College, NYC — Bachelors in Biology, Aug 2012 – Jun 2016

PROFESSIONAL DEVELOPMENT

Linux LFCS, Kubernetes SA (in-progress) **Google** Data Engineer (In-progress), Cloud Computing Foundations (Oct 2025) **SCRUM** Team Member (Oct 2024) **AWS** Cloud Technical Essentials (Apr 2024) **Codecademy** Data Scientist: NLP (Feb 2024); ML (Jan 2024); Interface Specialist, Analytics (Nov 2023)
